## BACKUP CARD

## RESTORE

The 24 words written on this card are the backup of a cryptocurrency wallet.

This information is highly confidential.

Anyone who knows these recovery words has full control over all your funds secured with this wallet.

Do not enter it on a computer and never store it in digital form.

To restore access to the funds secured by these recovery words, use a hardware wallet like the **BitBox02**.

If an optional passphrase is given, enter it on the hardware wallet as well.
